BRIEF DESCRIPTION OF ME

Highly motivated Full-Stack Developer with a strong background in computer science from an early age. I have developed exceptional skills in creating innovative and efficient solutions. With experience in web development and a deep understanding of both relational and non-relational databases, I am proficient in JavaScript and TypeScript, using modern frameworks such as React (Next.js) and Angular. I have experience styling with Tailwind and Bootstrap, and I can adapt to partial or full CSS. I am a professional committed to continuous improvement. Additionally, I enjoy working in teams, fostering collaboration, and contributing my knowledge to effectively achieve common goals.

TECHNIC SKILLS

React (High), Next.js (High), Angular (Intermediate), Flutter (Basic). JavaScript (High), TypeScript (Intermediate), C# (Basic), Python (Basic), .vb (High), Java (Intermediate). Bootstrap (High), Tailwind (High), CSS (Intermediate-High). MongoDB (High), MySQL (Intermediate). Git, GitHub (High), Figma (Intermediate), Trello (Intermediate). STOCK MANAGEMENT FOR BEVERAGE DISTRIBUTOR

Complete website creation with API + Deploy as a freelancer for a client with integrated stock management and contacts (clients, suppliers), fully automated and manageable with history, analytics, specific tables, useful filters, and detailed information. Uses labels to differentiate expiration dates of the same item and more.

TUWEBCUANTICA

Landing page focused on selling my services as a web and software developer. With different ways to attract clients and contact forms, direct email form for freelance work.

JOVENES A PROGRAMAR + SPOTIFY

This project is an initiative to create an app for the Plan Ibirapitá where users over 70 can access music through our website without Spotify Premium and have a personalized menu focusing on Accessibility.

KUBERALABS.COM

In mid-2024, I joined a team of professionals with years of experience in the sector and a senior engineer to develop this web and offer different digital services. It is a very useful and attractive landing page to capture the attention of clients who want to work with us.

SOLESDESIGN

Complete e-commerce, with 3 sections, shopping cart, unique item visualization, updated monthly SEO, with various payment methods including Mercado Pago and much more.

REAL ESTATE SOFTWARE (EDUCATIVE FINAL PROJECT)

Software developed in .NET with Windows Forms + MySQL, creation of accounts, sale and rental of properties, general and specific visualization, filters, QR reader, and much more.
